- 3.hand shower
- 4.small jets

SHOWER PANELS

1-YEAR WARRANTY

We wish to thank you for your trust in purchasing your new JAAZ shower panels. We will do everything in our power to uphold this trust. Please read the installation and user's guide with care before installing and using your shower. If you have any questions, our customer service is here for you. Warranty start date: Date of purchase: Date shown on the warranty certificate or the receipt. Repairs do not extend the warranty period.

Warranty items:

Proven manufacturing defects and material defects are processed free of cost during the 1-year warranty period.

Other claims are not provided for in the warranty.

The warranty is only valid if the following conditions are met:

This certificate is produced along with the date of purchase, company stamp and signature of the salesperson.

- Complete receipts such as (purchase date, complete salesperson details) are required. In case of damage, we also require concrete information on the type of damage / defects.
- Care when transporting the new shower (no prop, no torsion!)
- Unpack with care after purchase. In case of flaws, please file a complaint to the salesperson. You will quickly be provided with a replacement free of charge. Please do not use any parts which are clearly faulty for installation. This will invalidate the warranty.
- Water supply: Minimum pressure: 0.3 MPa, maximum: 0,4 MPa. Water hardness: If water hardness exceeds 10° dH, we strongly recommend the use of a water softening system.
- Installation should only be carried out by professionals! (plumber /electrician).
- No alterations shall be made to the device itself (control electronics).
- Assembly flaws are not covered by the warranty; please comply with assembly instructions, in particular those showing a safety symbol. Please make sure all connections are leak-proof.
- "Second hand products" are not protected by the warranty.
- Use original parts exclusively for repairs.
