

We wish to thank you for purchasing and investing your trust in JAAZ Faucet. We will do everything in our power to uphold this trust. Please read installation and care instruction carefully, because damage to surface & underlying material due to improper treatment / handling is not covered by warranty.

Care instruction

Do take proper care in installation. Before Installing the faucet, flush the pipeline properly so that it is free from debris / dirt. Cover the parts of Faucet properly to protect during masonry work. Finished surface after tiling should be within the minimum and maximum adjustment range indicated in diagram. Make sure proper Piping, Water Leakage, Water pressure and flow testing check is being done before final tiling work.

Do not use any abrasive sponges or scouring agents for cleaning. Clean the Faucet with a little soap and a moist cloth only. Then simply rinse off and wipe dry. You can avoid lime spots by drying the Faucet each time it is used.

Water Hardness: If water hardness exceeds 180mg/L, we strongly recommend the use of water softening system. Warranty does not cover any damage caused due to water hardness.

Warranty - 3 years

Proven manufacturing & Material defects would be replaced free of cost during 3 year warranty period, provided above care instruction are followed properly. Company liability would be limited maximum to the value of product.
